

// SYSTEM_PROTOCOL.EXE

How It Works

[PROTOCOL_SEQUENCE]

Operational Pipeline

Navigate the bootup sequence carefully to ensure full validation of your team's final output.

01

REG_001

Register

Assemble your squad of 2-5 operators. Complete the protocol access registration at mrdu.edu/ai-hack to secure your high-performance sandbox.

ACTIVE

02

IDEA_002

Ideate

Select your target sector: UI/UX, Agentic AI, Vibe Coding, or Web Dev, and structure your team's initial system blueprint.

ACTIVE

03

CODE_003

Build

Unleash pure neural computation. Sustain a rapid, focused, relentless 24 hours of programming, compiling, and configuring solutions.

ACTIVE

04

MENTOR_004

Mentor

Absorb world-class insight. Sync your progress checkpoints with 50+ industry veterans to accelerate and de-risk your pipeline velocity.

ACTIVE

05

SUBMIT_005

Submit

Finalize your submission before the automated technical freeze. Push your codebase, working demo, and repository packages.

ACTIVE

06

PITCH_006

Pitch

Defend your algorithm. Deliver a high-impact technical pitch directly to our elite sponsor and judge circuit.

ACTIVE

07

WIN_007

Win

Dominate the arena. Claim from our ₹2,00,000+ prize matrix, gain global sponsor visibility, and secure immediate hiring rounds.

ACTIVE

Ready To Commence?

Configure your terminal, register your team, and step onto the neural battlefield.
