Digital Media

## PLATFORM / TECH

Agentic AI, Generative AI, LLMs, NLP, Web  
Application, Social Media APIs, Content  
Management, Workflow Automation,  
Scheduling, Analytics

## SCOPE

Marketing Automation / Content Publishing / Campaign Management / Social Media Management

## DESCRIPTION

Develop an AI-powered marketing publishing agent that helps businesses automate the process of preparing, scheduling, publishing, and monitoring marketing content across digital channels. The agent should use campaign objectives, target audience, content assets, publishing schedules, and platform requirements to coordinate marketing activities. It should assist with content selection, scheduling, publishing workflows, performance monitoring, and follow-up actions while keeping users in control of important publishing decisions.
