INDUSTRY

Marketing / Advertising / E-Commerce /
Digital Media

PLATFORM / TECH

Agentic AI, Generative AI, LLMs, NLP,
Multimodal AI, Web Application, Content
Generation, Recommendation Systems

SCOPE

Marketing Content Generation / Campaign Creation / Content Personalization / Creative Automation

DESCRIPTION

Develop an AI-powered campaign content generation agent that helps businesses create marketing content based on campaign objectives, target audience, brand guidelines, products, offers, and communication channels. The agent should generate and adapt content for different formats and audiences while maintaining consistency with the campaign requirements. Users should be able to review, modify, and approve generated content before it is used.

KEY DELIVERABLES

- ✓ Brand profile and brand-guideline configuration
- ✓ Campaign creation and management
- ✓ Campaign objective definition
- ✓ Target audience configuration
- ✓ Product/service information
- ✓ Offer and promotion details
- ✓ Content brief generation
- ✓ AI-powered marketing copy generation
- ✓ Headlines and taglines

Overview

My Team
