SCOPE

Faculty Timetable Management / Scheduling / Conflict Resolution / Academic Operations

DESCRIPTION

Develop an AI-powered faculty timetable management agent that helps educational institutions create and maintain conflict-free academic schedules. The system should analyze faculty availability, subjects, classes, rooms, working hours, and existing timetable constraints to identify scheduling conflicts and recommend suitable alternatives. The agent should allow administrators to review and approve suggested changes while maintaining timetable consistency.

KEY DELIVERABLES

- ✓ Faculty profile and availability management
- ✓ Subject and course management
- ✓ Class and section management
- ✓ Room and resource management
- ✓ Faculty workload configuration
- ✓ Timetable creation and management
- ✓ Automatic conflict detection
- ✓ Faculty availability conflict detection
- ✓ Class and room collision detection

Overview

My Team

- ✓ AI-assisted timetable generation
- ✓ Alternative timetable suggestions
- ✓ Conflict resolution recommendations
- ✓ Manual timetable editing and override
- ✓ Administrator approval workflow
- ✓ Timetable version/history management
- ✓ Faculty timetable view
- ✓ Student/class timetable view
- ✓ Notifications for timetable changes
- ✓ Dashboard for unresolved conflicts
- ✓ Workload and scheduling analytics
- ✓ Timetable export and reporting
